REDMOUSE STUDIO

Communication Style

Attribute	Nuvexa Is	Nuvexa Is Not
Language	Direct, clear, specific. Uses numbers and timelines.	Vague, buzzword-heavy, abstract.
Attitude	Confident but humble. Lets results speak.	Arrogant, boastful, or self-congratulatory.
Formality	Professional-casual. Boardroom-ready but human.	Corporate-stiff or startup-sloppy.
Emotion	Warm when appropriate, controlled always.	Sentimental, dramatic, or emotionally manipulative.
Humor	Occasional dry wit. Never at the client's expense.	Joke-heavy, meme-forward, or sarcastic.
Relationship	Partner. Sits on your side of the table.	Vendor, supplier, or service provider.

BRAND VOICE AND TONE

3.5 Voice and Tone Development

Voice is who you are. It does not change. Tone is how you adjust for context.

Voice Characteristics (Constant)

Attribute	Description	Example
Authoritative	Speaks from experience, not theory. Builder who has done the work, not a consultant who has read about it.	*"We have transformed 50+ campuses. Here is exactly how we will transform yours."*

Attribute	Description	Example
Direct	Says what needs to be said without padding, hedging, or burying the point in qualifiers.	*"Your campus has 147 compliance gaps. We can close all of them in 60 days. Here is the plan."*
Warm	Human, approachable, partnership-oriented. Not cold corporate-speak.	*"We know this is a big decision. Let us walk you through it step by step."*
Precise	Uses specific numbers, timelines, and commitments instead of vague language.	*"INR 2.3 Cr. 58 days. 23 compliance items closed. One invoice."* Never: "Affordable, fast, comprehensive."
